Rustic in a panoramic position, between Montepulciano and Cortona. Farmhouse to renovate in a panoramic position between Tuscany and Umbria, exactly halfway between the splendid scenery of Montepulciano and the beautiful Cortona. The property consists of a farmhouse and two agricultural outbuildings for a total of approximately 350 m2. The farmhouse needs to be completely renovated to your taste and liking, it can be used both as a future home, but also as an excellent investment in the truly panoramic area, to develop an agritourism or tourist rental business. The location is wonderful surrounded by vineyards of Nobile di Montepulciano wine, olive groves, rolling hills, groves and wheat fields, representing all the uniqueness of the Tuscan/Umbrian territory which makes this project fascinating. The land is approximately 1 hectare but it is possible to purchase other hectares. The property is perfect, both for being a private home and for being used as a B&B, given its proximity to important tourist areas: Montepulciano 10 km Cortona 14 km Lake Trasimeno 13 km Perugia 48km Siena 70km Rome 170km Florence 116 km
